

GeneReviews Call for Authors

The *GeneReviews* editorial staff is pleased to invite authors to contribute *GeneReviews* chapters.

Our mission is to promote the appropriate use of genetic services in patient care and personal decision making by providing current, authoritative information on genetic testing and its use in diagnosis, management, and genetic counseling. *GeneReviews* chapters are written for the busy clinician, and as such, have a primarily clinical focus.

A *GeneReview* chapter may be authored by an individual or group.

Requirements to author a *GeneReview* chapter:

- You/your group must have published on the disorder.
- You/your group must be involved in research on and/or treatment of the disorder.
- Each *GeneReview* must have at least one MD included in the author list.

To offer to author a chapter, please email newgr@uw.edu and include the following:

- Your name and affiliation
- Name of the disorder for which you are offering to write a chapter
- At least one and no more than three publications (pdf) on the disorder on which you are an author
- Any other experience that you or your group have with this disorder

The *GeneReviews* editorial staff will review all offers, considering our mission and *GeneReviews* already in process. Response time will be about 1-3 weeks. You will be notified by email if your offer is accepted, and a custom template will then be prepared for you.

For more information, please see the [For Prospective Authors](#) section of our Web site.
